EĞİTİM **Çanakkale 18 Mart University**, Çanakkale, Turkey **2011 - 2016**
Bachelor's Degree, Computer Engineering

EXPERIANCES **VNGRS, Devops Engineer**, Istanbul, Turkey **May 2018 - Now**
Devops Team

- I found the opportunity to work on AWS, Azure and Google Cloud. Other than cloud services, I used technologies such as docker, kubernetes, helm, terraform, ansible, jenkins, circleci.

EBrandValue, Devops Engineer, Istanbul, Turkey **November 2016 - May 2018**
Devops Team

- I have experienced writing Ansible, Terraform and Dockerfile scripts; using Marathon/Mesos for container orchestration. Same time I worked actively in Django/Python(Backend) enhancements and oncall rotation.

Metglobal, Intern, Istanbul, Turkey **June 2014**
System Management Team

- Puppet Policy-Base Autosigning için bir sorgulama betiği yazdım.
(<https://github.com/aybuke/policy-based-for-PUPPET>).

Gamegos, Intern, Istanbul, Turkey **August 2013**
System Management Team

- I wrote Python library for Haproxy config file and Rest API for this library.
(Repos: <https://github.com/aybuke/hapra>, <https://github.com/aybuke/python-haproxy-tools>).

PROJECTS AND CONTRIBUTIONS

- **LibreOffice: The patches I have prepared for Libreoffice are as follows:**
<https://gerrit.libreoffice.org/#/q/aybuke+status:merged>
- **Outreachy 2014-2016: The patches I have prepared for Linux Kernel are as follows:**
<https://patchwork.kernel.org/project/opw-kernel/list/?submitter=90241&archive=both>
- **I'm one of the contributor Mozilla Balrog Project:** Balrog using as app update service by Mozilla Developers.(AUS)
<https://github.com/mozilla/balrog-ui/>
- **I'm one of the contributor LibreOffice Crash Project:** Crash using as crash report for Libreoffice servers.
<https://github.com/mmoehrhart/crash/>
- **My Pebble Smartwatch App: Magic Button:**
<https://github.com/pebble-tr/Magic-Button>
- **I'm one of the contributor Pebble Watchface Textwatch-tr:**
<https://github.com/pebble-tr/PebbleTextWatch-tr>
- **I'm member of LibreOffice and Mozilla transtation team:**
<https://support.mozilla.org/tr/kb/locales/tr>
<https://wiki.documentfoundation.org/Language/Çevirmenler/tr>

PRESENTATIONS AND CERTIFICATIONS

- LPIC1 ve OpenSuse Certification (id: LPI000278784)
- Ham Certification (TA3IOQ)
- Pythonsaati 46 Virtualization at the Application Layer (2018)
- Pythonsaati 36 Infrastructure as Code (2018)
- Free Software ve Linux Days (2016) LibreOffice Development and Dissemination Meeting
- Academic Informatics Conference - Aydın University (2016) LibreOffice Development Workshop (4 days)
- Academic Informatics Conference - Aydın University (2016) Free Software Opportunity for Women
- Balıkesir University (2016) Free Software and Free Society Seminar
- Devfest Istanbul (2015) Contributing LibreOffice and Our Experiences
- INET-TR (2015) Women and Informatics Seminar
- DevFest Student Eskişehir (2014) Contributing Linux Kernel and Our Experiences
- Muğla 2. Free Software Workshop (2014) Contributing Linux Kernel and Our Experiences
- Free Web Tecnological Days (2014) Adminstrate Puppet Certifications
- Academic Informatics Conference - Mersin University (2014) Free Software Opportunity for University Students
- Free Web Tecnological Days (2013) What is Haproxy and Hapra?

ABILITIES

- Diller: Turkish, English (B2)
- Programming Languages: Python, C/C++ *little bit Perl, Ruby and Go.*
- Tools: Vim, Git, Gerrit, Mercurial, SSH, Screen, Terraform, Docker, Kubernetes, Helm, Ansible, Jenkins, CircleCi
- Frameworks: Django, Tornado, Flask, Chalice

HOBBIES

- Contributing for free software project.
- Reading novel and comics. Watching series and films.
- Playing drum and midi keyboard.
